

Eastern Collaborative Project

SEMINARS 2011

The Australian Association of Gerontology, The Eastern Collaborative Project and the Australian and New Zealand Society for Geriatric Medicine warmly invite you to this Expo and Forum as part of the 2011 Combined Seminar Series. These seminars are suitable for anyone with a personal or professional interest in issues to do with ageing.

Looking after the old fellas

TUESDAY 18 OCTOBER 2011
4pm till 7pm

The diversity of our ageing society brings with it many issues that need to be recognized and explored and among these is ageing relating to gender. Published research into ageing seems to have focused on women's rather than men's issues. It appears as though men have been left behind. This expo and Forum aims to promote men's activities and resources for older men and service providers. The sessions will include interactive conversations with the Adelaide Thinker in Residence.

Presenters:

Dr Alexandre Kalache, Adelaide Thinker in Residence: Age Friendly Cities, what does this mean for men?

Dr Mandy Stanley: Old Fellas in their shed, research and findings

Gary Green: Australian Men's Shed Association

Dr Ian Chapman: Muscle loss & testosterone levels in older men

EXPO stalls include:

Australian Men's Shed Association and Eastern Region Men's Shed
TADSA, Seniors Wise, AASA, Strength for Life, Movember, Arthritis SA
Over 60s SA Cricket, The Freemasons Centre for Men's Health

Outline :

4:00pm: Welcome and a 15 minute taster from Gary Green

4:15pm: Dr Alexandre Kalache: Age Friendly Cities; what does this mean for men? An interactive session

5:15pm: Refreshments and expo

6:00pm: Mandy Stanley: Old Fellas in the shed, community and private

6:30pm: Dr Ian Chapman: Muscle loss & testosterone levels in older men
