

POSTER DISPLAY INSTRUCTIONS

1. Poster preparation – maximum size for posters is the B1 size (707mm wide X 1000mm high) for portrait orientation only.
2. Velcro-friendly display panels will be provided - **please bring your own means to attach your poster. Velcro dots ("hook") work best.** The use of pins to secure posters is not effective as the poster boards are covered in a felt material.
3. **Please do not send posters to AAG or the venue in advance** – you will need to bring your poster with you to the conference.
4. AAG or the venue cannot store posters at the conclusion of the conference. It is, therefore, the responsibility of each poster presenter to **collect your poster by 3.00pm on Friday 25 November.**
5. The presenting author for each poster is asked to be present during the assigned 'poster presentation' times *where possible*, to answer queries from delegates.

HOW TO CREATE A GREAT POSTER – SOME HELPFUL TIPS

- Important information should be readable from about 5 - 10 feet away
- Title is short and draws interest
- Word count of about 300 to 800 words
- Text is clear and to the point
- Use of bullets, numbering, and headlines make it easy to read
- Effective use of graphics, colour and fonts
- Consistent and clean layout
- Includes acknowledgements, your name and institutional affiliation

WHERE DO I BEGIN?

Answer these three questions:

1. What is the most important/interesting/astounding finding from my research project?
2. How can I visually share my research with conference attendees? Should I use charts, graphs, photos, images?
3. What kind of information can I convey during my talk that will complement my poster?
